Model Subwoofer Instructions

Congratulations on purchasing the Tivoli Audio Model Subwoofer. We are particularly proud of the extraordinary performance and value this product represents. The Model Subwoofer provides deep, musical bass despite its diminutive size. Its natural wood cabinet, color, and size make it a perfect companion piece to equipped Tivoli Audio radios. We wish you many years of pleasurable listening.

We know you are anxious to use your new Model Subwoofer, but please take a moment to fully read the Safety Instructions and the other information in this owner's manual. If you have any questions, do not hesitate to contact your dealer or Tivoli Audio directly.

It is a good idea to save the carton and original packing should you ever need to ship your Model Subwoofer, as shipping damage is not covered by the factory warranty.

On behalf of all of us, thank you for choosing Tivoli Audio, and enjoy your Model Subwoofer!

Packed with your Model Subwoofer you should find:

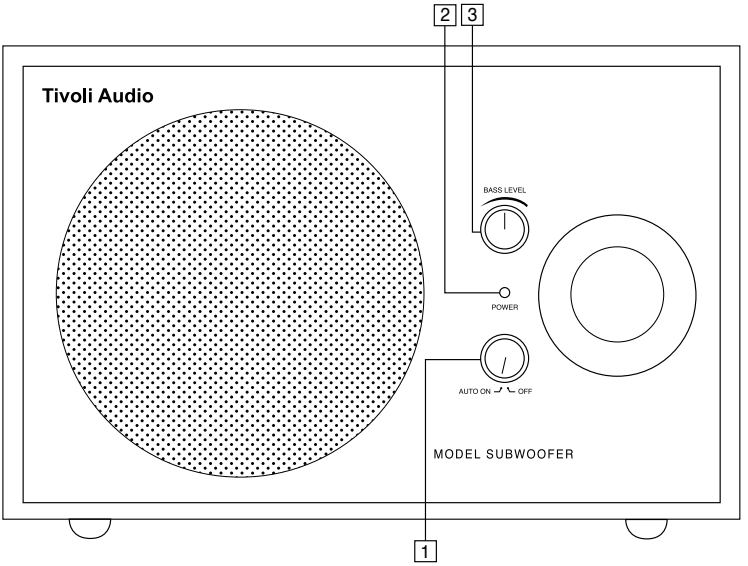
- 1 9' Power Cord
- 1 15' Mini Audio Cable
- 1 Warranty Registration Card (USA only)

Please contact your dealer/distributor or Tivoli Audio if any of these items are missing.

Getting Started

1. Connect the power cord to the input in the back of the Model Subwoofer and then plug the cord into an electrical outlet.
2. Connect one end of the included mini audio cable to the rear input of the Model Subwoofer marked "Sub In."
3. Connect the other end of the mini audio cable to the rear output of your equipped Tivoli Audio radio marked "Sub Out." The radio should be off while making this connection.
4. Turn the Model Subwoofer on and adjust the bass level to the center detent position. Turn your Tivoli Audio radio on and tune to the desired station.

Guide To Features (Front Panel):

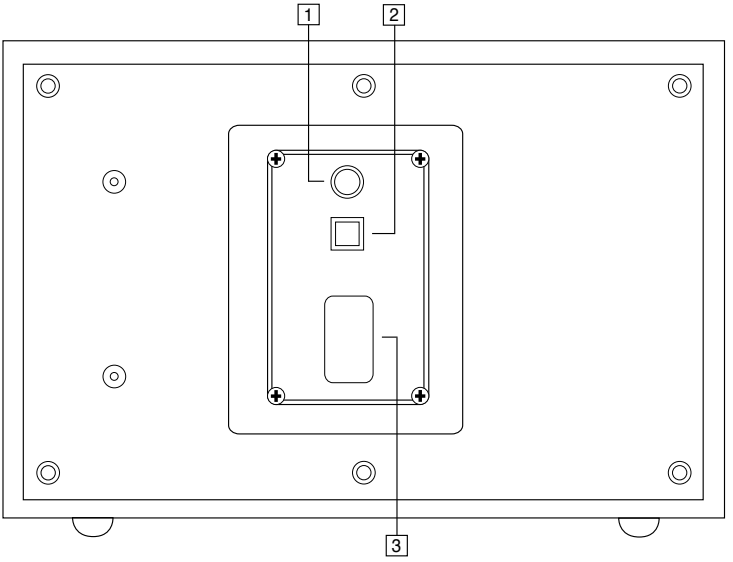


1. **AUTO ON/OFF:** In the Auto position, the light will glow red (Standby) and change to green (On) once a signal is detected. If the subwoofer does not receive a signal after approximately 20 seconds, it will automatically return to Standby and the light will change back to red.

2. **POWER STATUS LED:** See above.

3. **LEVEL:** Adjusts the volume level of the Model Subwoofer. The Model Subwoofer adds a subtle but significant musical contribution to your equipped Tivoli Audio radio by extending the bass frequencies by a half octave. It is designed to produce beneficial bass reproduction to enhance the sound of your Tivoli Audio radio. The “Sub Out” on your Tivoli Audio radio is variable, thus it is unnecessary to adjust the Model Subwoofer’s level each time you adjust your radio’s volume level.

Guide To Features (Rear Panel):



1. **AUDIO INPUT:** Insert one end of the included audio cable into this mini female input. Insert the other end of the audio cable into the mini female output on your equipped Tivoli Audio radio marked “Sub Out.” This jack accepts a 1/8" stereo male mini-connector.

2. **12VDC INPUT:** Use this input to operate the Model Subwoofer from an optional 12VDC 1.5A fused external power supply. The connector must be 5.5mm/2.1mm center positive.

3. **POWER INPUT:** Connect the supplied power cord to this jack. When disconnecting the power cord, always grasp the connector. Never pull on the cord itself. Avoid bundling the power cord together with an antenna or an audio cable since this can inject noise in the audio path.

Placement:

Since bass frequencies are non-directional, the Model Subwoofer can generally be placed anywhere on the floor in the listening room. Placement close to a wall or in the corner of a room will yield more bass. Placing the subwoofer above the floor such as in a bookshelf or on a counter will negatively affect bass reproduction. DO NOT OBSTRUCT THE FRONT BASS PORT. This port enhances bass response and helps vent internal heat.

The Model Subwoofer is not a small table or footrest and should not be used as such.

The Model Subwoofer is magnetically shielded but due to the strength of the magnet we advise keeping the unit at least 5" away from a computer monitor or television set.

Cleaning:

For your own safety, always disconnect the Model Subwoofer from the power outlet during cleaning. Never use any harsh cleansers or solvents on your Model Subwoofer. Avoid using spray-on waxes. A liquid wood polish will usually yield good results. The face of the unit may be cleaned with a soft cloth.

Since the cabinet is natural wood, the color/grain pattern may not match your other Tivoli Audio products.

Also note that some wood finishes such as cherry and walnut can darken over time due to light exposure. This is normal for a natural wood product.

This Limited Warranty covers the functionality of the product for its normal, intended use as specified in this Owner's Manual. It does not cover a malfunction or damage that has resulted from improper or unreasonable use or installation, using the charger to charge alkaline batteries, faulty ancillary equipment, modifications, unauthorized repair, shipping damage or loss, abuse, accidents, use on improper voltage/current, power surges, lightning or other acts of God, excess moisture, normal wear and tear, commercial use, or purchase from unauthorized dealers. Proof of purchase as evidence the unit was purchased from an authorized dealer may be required for warranty service. **Please contact the dealer of purchase or local distributor for warranty service or repair.**

Please refrain from opening this product or taking it apart as doing so will void this Limited Warranty. There are no user serviceable parts inside. Tivoli Audio will not pay for costs incurred due to correction of reception problems, elimination of externally generated static/noise, loss of time, inconvenience, loss of use of product, or damage caused by improper use of this product.

In the event the product is returned during the warranty term and is eligible for service under this Limited Warranty, we will repair or replace any defective parts within a reasonable period of time and free of charge.

THESE LEGAL RIGHTS VARY FROM COUNTRY TO COUNTRY. SOME PLACES DO NOT ALLOW THE EXCLUSION, RESTRICTION, OR MODIFICATION OF CERTAIN IMPLIED RIGHTS OR THEIR EFFECT. IN THOSE SITUATIONS THIS LIMITED WARRANTY WILL ONLY APPLY TO THE EXTENT THAT THE APPLICABLE LAW ALLOWS.

The laws of your country may provide you with legal claims against the seller or manufacturer of this product. This Limited Warranty does not affect those rights.

The provisions of the Limited Warranty are in lieu of any other warranties or conditions, except those provided by law. This Limited Warranty does not affect any legal rights provided to you by law and does not preclude any remedy you may have under law.

In countries where liability limits are not precluded by statute, the maximum liability of Tivoli Audio shall not exceed the purchase price paid by you for the product. In countries where limitations of liability are precluded by law, Tivoli Audio shall be liable for no more than the direct damages for bodily injury, and/or real or personal property arising from the negligence of Tivoli Audio.

Where not prohibited by law, Tivoli Audio shall not be liable for special, incidental, consequential, or indirect damages. Some places do not allow limitations on the exclusion or limitation of relief,

special, incidental, consequential or indirect damages, or the limitation of liability to specified amounts, so the above limitations or exclusions may not apply to you.

This Limited Warranty is void if the label bearing the serial number has been removed or defaced.

If you purchased an extended service contract from your dealer and service is required after the term of this Limited Warranty has expired, please contact your extended service contract provider to obtain service.
